Profile

Dedicated student with success in various work environments. Effectively leads or participates in teams and has research and computer science experience. Willing to learn new skills quickly to adapt to situations.

Education

University of Michigan, Ann Arbor, MI

Expected May 2027

Bachelor of Science (B.S.) in Computer Science

GPA: 3.72 / 4.00

Recognition: William J. Branstrom Freshman Prize, James B. Angell Scholar, University Honors

Involvement: Wolverine Sports Analytics, M-SABR

Skills

Languages: Python, C, C++, Java, SQL

Technologies: Git, Unix

Other: Research, Collaboration, Debugging, AI

Experience

Junior SDE, Amazon

September 2025 - Present

- Working to help selling partners on Amazon solve their support cases using automated workflows.
- Using instrumentation to gain internal insight on the performance of AI agents by collecting metrics, building dashboards, and developing LLM-as-a-judge systems.
- **Skills/Technologies Used:** Collaboration, Java, Python, Git, AI

Co-Founder, Pathwayze

September 2024 - December 2024

- Won first place and people's choice in the Michigan Tech Week 2024 Student Hackathon and secured \$5000 in funding.
- Conducted market research and developed an MVP to present in competition.
- **Skills/Technologies Used:** Research, Presentation, Figma

Student Research Assistant, UM SIBL

May 2022 - August 2022

- Trained a CycleGAN AI algorithm to detect potential cancer-marking proteins.
- Learned AI/ML fundamentals through research and presented findings.
- **Skills/Technologies Used:** Python, AI, Research, Presentation

Projects

Wolverine Sports Analytics

- Collaborated in teams to analyze sports statistics using Python and SQL.
- Gained experience scraping and refining data to meet project deadlines.
- **Skills/Technologies Used:** Python, Pandas, AI, Git, BeautifulSoup, Presentation

Terminal Animation Project

- Built my own version of Asciiquarium, a terminal animation script, using perl and my own ASCII art of dinosaurs.
- Learned basics of perl scripting by researching and asking questions on online forums.
- **Skills/Technologies Used:** Perl, Research

Relevant Coursework

Data Structures and Algorithms, Foundations of Computer Science, Computer Science Pragmatics, Discrete Math, Computer Organization, Programming and Data Structures, Cybersecurity, Web Systems, Math for Machine Learning, Computer Networks

Interests

Sports, Computer Hardware, Animated Movies
